Division of Licensing
Office of Nuclear Reactor Regulation

SUBJECT: Beaver Valley Power Station - Unit No. 2
Docket No. 50-412
Backfit Status

Gentlemen:

The attached sheets reflect the current status of the Beaver Valley Power Station Unit No. 2 backfit issues.

Duquesne Light Company (DLC) backfit sheets parallel the status requirements of Paragraph V of the Licensing Backfit Procedure (Enclosure 2 of GNL 84-08) except that they do not include the scheduled completion date for each milestone.

The appeal meeting on the illumination level issue was previously delayed because of schedule conflicts. DLC proposes that June 28, 1985, be scheduled for the illumination level appeal.
