Seals

① Raychem/Chico, 0588 Cat II

② Similarity demonstration, bonding to metal vs cable jacket

③ Misc. lesser questions

④ 50.49 seals

Want to consider going Cat II - justify

⑤ Target Rock SOV

⑥ Assurance that there are no seals outside qualified scope

SOVA

11/20 - 7:15 am - License in opinion, one op time - acceptable

① PORV pilot SOVs - if on ML, need cable seal for long operating time

② Some valves were replaced after qual life expired - Chuck Paulk covers

Accuracy in aspects acceptable

① Q's for W

② How is 10^7 ohms for TB errors used in the error analysis?

③ What ~~total~~ error allowance was made for EPAs other than TB?

④ What acceptance criteria were the cable results compared with?

⑤ Tutorial - please explain how the individual ^{environmental} error terms are

combined into an overall environmental error term
