Reference 1) Letter ET 91-0235, dated December 24, 1991, from
F. T. Rhodes, WCNOG to NRC
2) Letter dated July 10, 1992 from W. D. Reckley,
NRC to B. D. Withers, WCNOG
Subject: Docket No. 50-482: Reassessment of Generic Letter
88-20, Supplement 4, "Individual Plant Examinations
for External Events" Submittal Schedule

Gentlemen:

This letter provides the results of Wolf Creek Nuclear Operating Corporation's (WCNOG) reassessment of the schedule for submitting the Individual Plant Examination for External Events (IPEEE) as requested by Reference 2. Based on this reassessment the results of WCNOG's IPEEE will be submitted by June 30, 1995.

Reference 1 provided a description and schedule of the program for completing the Wolf Creek Generating Station (WCGS) IPEEE as required by Generic Letter 88-20, Supplement 4. As identified in Reference 1, WCNOG personnel are developing the Individual Plant Examination (IPE), and these same people will also perform the analyses for the IPEEE. The original schedule was developed to allow WCNOG to maximize the amount of IPEEE work performed by WCNOG personnel. WCNOG believes that the schedule contained in Reference 1 was consistent with the level of safety significance attributed to this effort and the resources available to complete the IPEEE.

WCNOG understands that a September 1995 IPEEE submittal date could impact the NRC's schedule for closure of severe accident issues, therefore, it is WCNOG's intent to submit the results of the WCGS IPEEE by June 30, 1995. Should circumstances arise that warrant extending this schedule beyond June 1995, it would be WCNOG's intent to meet with the NRC staff regarding a schedule extension.
