Gentlemen:

SUBJECT: Application for Amendment of Operating License

Enclosed please find Omaha Public Power District's (OPPD) "Application for Amendment of Operating License" which seeks to supplement the application transmitted by Reference 2. The attached changes are administrative in nature in that the supplement updates Reference 2 based on the issuance of Amendments 145, 146 and 147 and provides several administrative clarifications. As such, the change does not affect the No Significant Hazards Analysis previously transmitted by Reference 2.

Attachment A contains replacement pages for the markups reflecting the requested changes of the Technical Specifications. Attachment B provides replacement pages for the Discussion and Justification for the changes. Attachment C contains replacement pages to the draft copy of the Offsite Dose Calculation Manual and the Process Control Program.

If you have additional questions, or require further information, please do not hesitate to contact me or members of my staff.

Sincerely,
