**Withdrawal of Internal Re-Organization Request for MAHLE Engine  
Components USA, Inc. Muskegon Technical Center**

Bryan,

This letter is to inform NRC that MAHLE must withdrawal the request of our planned internal reorganization for the Muskegon Technical Center. This reorganization is in reference to the "Announcement of MAHLE Internal Reorganization" letter dated on March 2, 2020, and also included in the information sent to NRC by MAHLE Max Maschewske dated on March 15, 2020. This withdrawal is a result of the Corona Virus pandemic and the resultant effect on business.

The planned reorganization has been delayed within MAHLE and planned to take place at a later with target of January 1, 2021. Therefore, we will withdrawal the current request, MAHLE will not follow through on the reorganization at this time and will then begin a new request near the beginning of October 2020, provided further delays are not experienced.

I appreciate your efforts and consideration. Please feel free to contact myself or RSO Max Maschewske if any more information is needed.

Best regards

Kimm Karrip  
Head of Central Labs and Muskegon Technical Center  
MAHLE Engine Components USA, Inc.

---

Hello Bryan,

Thank you for the discussions yesterday. Attached, please find a letter to withdraw MAHLE's notification of an internal reorganization. Unfortunately, this action must be taken as a result of the COVID19 Pandemic that we are all working through. I am including the original documents sent that informed the NRC of this change internal reorganization for the Muskegon Tech Center.

Please review the attachments and let me know if there is any other information that you need from me. As discussed, we will resend the notification in October, provided that MAHLE's plan to perform this action on January 1, 2021 holds true. Thank you for your help through this situation.

Kind regards,

Kimm Karrip
