Subject: [External_Sender] 10 CFR 110.50(c) Notification for source shipment to Nucor Hertford County

Hello Mr. Stephen Baker,

Per your instructions, I want to follow up on our phone conversation this morning. To prevent the future failure to file the 830 notification at least 7 days prior to the sources leaving the manufacturer in Germany, we will do the following.

1. We will modify our QA/QC to reflect the requirement to file the 830 notification within the designated time limits.
2. We will amend our internal checklist for source shipment to reflect the need to file the 830 notification within the designated time limits.
3. After an order has been place with IMS requiring importing or sources, we will notify the future possessor of the sources of the notification requirement. We'll provide a copy of the completed 830 notification to them, and the date NRC was notified.

It is my belief that this will prevent any future occurrences of the failure to notify. All documentation will be updated within the next 90 days. Our company CEO and Authorizing Officer is on this email, and is fully aware of the situation.

If you have any questions or concerns, please let us know.
