Re: COVID-19 PHE Regulatory Relief Request for Radioactive Materials License 34-29200-01MD et al, Cardinal Health, Dublin, Ohio

Dear Mr. Orlikowski,

Cardinal Health 414, LLC (hereafter Cardinal Health) submits a request to the U.S. Nuclear Regulatory Commission (hereafter NRC) for regulatory relief during the COVID-19 PHE for 10 CFR Part 20.2206(c) in italics below.

*The licensee shall file the report required by § 20.2206(b), covering the preceding year, on or before April 30 of each year. The licensee shall submit the report to the REIRS Project Manager by an appropriate method listed in § 20.1007 or via the REIRS Web site at <http://www.reirs.com>.*

As a result of the COVID-19 PHE, there have been several changes in business operations at Cardinal Heath which have inhibited the ability to meet the April 30 deadline. These operational changes have led to challenges in compiling all individual dosimetry data Form NRC 5 data and in the validation of the data. As a result, Cardinal Health requests regulatory relief in the form of a 45-day extension to submit the information required by the Form NRC 5 to ensure that the data submitted is complete and accurate.

Cardinal Health submits this request in regard to the following radioactive materials licenses issued by the NRC:

- 34-29200-01MD
- 34-31473-02MD
- 34-31473-03MD
- 34-32780-04MD
- 34-32840-01
- 34-32780-02

Should you have any further questions, please contact me at 614.553.4555.

Sincerely,

Hi Tammy,

Can you please process this into the system as an exemption request?

This is an emergent request related to the COVID-19 public health pandemic.

Thanks,

Bob
