Subject: [External_Sender] Draft report
Date: Thursday, November 10, 2016 3:17:44 PM
Attachments: [First Draft Outline Harvesting PNNL rev2.docx](#)

Matt, Pat,

The attached document is a draft and should be treated as such. As discussed, the document is missing some references, and is awaiting some input for the sections on information tools for harvesting. Also note that the section on examples is being rewritten to homogenize the language. Any feedback on the updates is appreciated.

On the other items:

- We would prefer to combine the report and the workshop summary and issue a single report. This should help with managing costs associated with producing the report, and will ensure that the report includes the latest information from the workshop.
- I will work with our financial specialists to see where we stand on spending to date and anticipated costs through January. I will touch base with Pat on Monday about this.
- As discussed, it would be helpful to have two people from PNNL (me, plus our materials SME) attend the workshop. This (and the associated planning and post-workshop summary generation) will require a modification to the scope and costs on the contract.

Please let me know when you receive this.

With best regards,

Pradeep

Patrick,

I don't recall if I got this back to you or not. If not, attached is the updated version. In addition to the editorial changes you suggested, an internal peer review caught a few more editorial changes (format checks, grammatical issues). These are in the attached.
