#96674
U.S. Nuclear Regulatory Commission
License Management Branch
Washington, D.C. 20555

Dear Sirs:

Due to increasing projects and a number of additional trained personnel coming on board, I would like to request a change in item 12 of the above referenced license that was issued to the Department of Health Education and Welfare, Indian Health Service on October 30, 1978.

To allow other operators to use the nuclear gauge I am requesting that item 12 be changed to read as follows:

12. Licensed material shall be used by or under the supervision and in the physical presence of individuals designated by the Radiation Protection Officer.

The following procedures will be followed in selecting the designated individuals by the licensee:

1. Only persons who have successfully completed the Troxler Nuclear Gauge Training Course will be allowed to use or supervise in their physical presence the use of the nuclear gauge.
2. The Radiation Protection Officer will maintain records of individuals designated to use or supervise in their physical presence the use of the nuclear gauge including copies of their training certificates and personnel monitoring reports.

Please notify me of any additional requirements necessary. I may be reached at 399-7164 (FTS).

Sincerely,

COPIES SENT TO OFF. OF
INSPECTION AND ENFORCEMENT

Randy Willard
