TECHNICAL ASSISTANCE REQUEST NO. ORB-2-175

Plant Name: Monticello

Docket Number: 50-263

Branch Code: ORB-2

Project Manager: B. C. Buckley (7403)

Technical Review Branches: Materials Engineering Branch
Effluent Treatment Systems Branch
Radiological Assessment Branch

Requested Completion Date: (1) Questions - August 8, 1975
(2) Safety Evaluation - August 20, 1975

Description of Request: Your review and evaluation of the licensee's submittal, dated July 1, 1975, should address the following topics:

1. Conformity between proposed reactor coolant system pressure temperature limitations and 10 CFR 50 Appendix G requirements,
2. Acceptability of proposed off-gas system technical specifications as an interim measure until Appendix I considerations have been fully implemented, and that proposed system modifications are acceptable, and
3. Radioactive iodine limit based on a reevaluation of the critical-path dairy farm.

Original Signed by:
Dennis L. Ziemann

Dennis L. Ziemann, Chief
Operating Reactors Branch #2
Division of Reactor Licensing
