Dear Mr. Repak:

Subject: Routine Inspection No. 030-31706/92-001

This refers to your letter dated September 9, 1992, in response to our letter dated August 11, 1992, and to your telephone conversation with Mr. Jim Dwyer of my staff on October 6, 1992.

Thank you for informing us of the corrective and preventive actions documented in your letter. However, as Mr. Dwyer explained to you during the referenced telephone conversation, to complete these actions the City of Johnstown must submit a request for amendment of the NRC license, naming a new Radiation Safety Officer and limiting the license authorization to possession only, or properly dispose of the nuclear weigh scale and submit a request for termination of the license. It is our understanding from this telephone conversation that the City of Johnstown will submit to this office within 30 days from the date of this letter, either a request for amendment of the license as described above, or a request for termination of the license following proper disposal of the nuclear weigh scale.

If our understanding is incorrect, please notify us immediately.
