Dr. Cecil O. Thomas, Chief
Standardization & Special Projects Branch
Division of Licensing
Office of Nuclear Reactor Regulation
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

SUBJECT: XN-NF-82-06(P), "Qualification of Exxon Nuclear Fuel for Extended Burnup;" Submission of Additional Information

Ref.: Letter, G.F. Owsley (ENC) to J.R. Miller (NRC), dated March 11, 1982 (GFO:017:82)

Dear Dr. Thomas:

Enclosed for your information and review is additional information regarding the subject review. This information concerns the propagation of DNB phenomena from fuel rod internal pressure considerations.

Exxon Nuclear Company considers information contained in the enclosure to this letter to be proprietary. In accordance with the Commission's Regulation 10 CFR 2.790(b), the Affidavit forwarded by the reference letter provides the necessary information to support the withholding of the enclosure to this letter from public disclosure.

This letter and its enclosure do not constitute application for a new special project review and approval. Therefore, no application fee is required under the Commission's Regulation 10 CFR 170.12(f) and no additional payments are forwarded herewith.

If you have any questions regarding this submission, please feel free to contact R.A. Copeland or myself.

Sincerely,

J.C. Chandler
