SUBJECT: "THREE MILE ISLAND" -

DOCKET NUMBER
PROD. & UTIL. EAG. 50-289
50-320

Dear Sir or Madam:

I desire to receive notice of, and opportunity to participate in, any public hearings related to the obtainment of permits, licenses, approvals, and other formal requisites for Metropolitan Edison to reoperate the reactors at the Three Mile Island power plant.

I heard on a recent radio broadcast something about needing to notify the NRC to be permitted to attend an upcoming meeting. If this is the way you operate, please register me and send me an agenda.

In case I have not made my request clear:

I WANT NOTICE OF, AND PERMISSION TO ATTEND, ANY PUBLIC HEARING OR MEETING RELATED TO THE STATUS OF THE NUCLEAR POWER PLANT AND REACTORS AT THREE MILE ISLAND, PEACH BOTTOM AND BELWICK.

Anything you do to keep me informed will be appreciated. I can be telephoned during business hours at (717) 394-0793.

Acknowledged by card... *9/25/79*

Sincerely,
David D. Nesbit
