

September 6, 1979

Mrs. Ilse Ahlers
21 Crestview Hill Road
Livingston, New Jersey 07039

Dear Mrs. Ahlers:

Your recent letter to the Department of Radiation around Three Mile Island, Pentagon, has been referred to this agency for reply, since we are the Federal organization with responsibility for regulating nuclear power plants such as Three Mile Island.

We appreciate the time you have taken to share with us the article from the German Tribune on man-made radiation being a fraction of natural levels. The issues it discusses are important ones.

Sincerely,

Sue F. Gagner
Public Affairs Officer
Office of Public Affairs
