Docket No.50-330 Unit 2      Dates: from 12/13/79 to 10/30/81  
CONTAINMENT INTERNAL STRUCTURES COATING DEFICIENCY

Dear Mr. Felton:

We are the attorneys for J. L. Manta, Inc. J. L. Manta is a co-defendant in a lawsuit filed against it by Consumers Power Company and Bechtel Corporation in the Circuit Court for the County of Midland, Michigan. The lawsuit arises out of a containment internal structures coating deficiency (hereinafter "coating delamination problem") in the containment and other buildings at the Midland Nuclear Power Plant, which plant is owned by Consumers Power Co. of Jackson, Michigan.

We are interested in obtaining documents through the Freedom of Information Act that the NRC may have with regard to the coatings delamination problem at the Midland Plant. The NRC Region III office under the direction of Mr. J. G. Keppler in Glen Ellyn, Illinois was involved in this particular investigation. The Glen Ellyn office has referred us to your office for documents.

We would first like to know if the documents, en toto, are either at the Midland Public Documents Room or in the Washington DC Public Documents Room. If they are not in the PDR in either Midland or Washington, are they in the NRC's office in Washington DC? In any event, we also want to know how we may go about obtaining the documents regarding the above-named matter. And, before we order anything, we would like to know of there is a way to find out how many documents and what type of documents exist. Are you able to tell us the above information?

Apparently, the first report was made December 13, 1979 and the last report or letter was created on 10/31/81.

I would appreciate your contacting me by telephone (collect if necessary)

or by letter with regard to the above requests.

Thank you for your kind assistance. I look forward to your reply.

Very truly yours,

SMITH, HAUGHEY, RICE & ROEGGE
