DOCKET NUMBER

PROPOSED RULE

PR-140(44FR43128) (21)

To: NRC Re: "Extraordinary nuclear occurrence"

As a citizen within 2 miles of TMI
I object to your or anyone stating
we were not exposed to overexposure
of radiation. Mr. Tolman stated at
a public meeting the NRC started
monitoring at 11:00 a.m., Feb., March
28, 1979. No one knows exactly
release between 4:00 a.m. - 11:00 a.m.,
March 28th. Mr. Tolman's earlier

statement "no, we cannot guar-
teer you that" is up to a
citizen's question. Can you

Guarantee me that my sister is not
or my family has not been
affected by this - this disease.

My personal mental health is
so affected by the TMI accident
and the aftermath, that my
husband and I have discussed
a "psychological unit". I find
a nurse started curing a subse-
quents due to personal emotional
anxiety due to TMI. You may
wish to contact her. If TMI has
been, I know I'm not alone!
