Dear Howard:

I am replying to your October 6, 1972 letter to the Deputy Director for Reactor Projects wherein you requested copies of certain documents. As you know I am the attorney assigned to the Monticello case and in order to maintain continuity, I would appreciate receiving all future requests for documents and information concerning this case.

All of the documents referred to in your letter are currently under preparation. I anticipate that the Advisory Committee on Reactor Safeguards Report will be issued by the end of October. The Staff Safety Evaluation Report and the Final Environmental Statement should be finalized by the middle of November. The proposed full-term operating license should be available in the next couple of weeks. I will send copies of these documents to you as they become available.

Sincerely,

15/
