Dear Sir,

We at the 6th grade would like to know about the nuclear power plant in Harrisburg Pa. Do you think there will be a evacuation? Some of us in the 6th grade are very interested in nuclear energy and how it works. We are learning about this in class. Could we have a book on nuclear energy. Do you think the power plant was sabotage or someone from a foreign country to brake the steam valve and the cooling system? Thank you

Sincerely yours
Randal R. Springer
