Harold Thornburg, Assistant Director for Procedures,
Regulatory Operations

Request for Information Regarding Monticello Nuclear Generating
Plant

We have received the following request for information from the
intervenors in the Monticello operating license application:

1. Supply copies of all AEC Inspection Reports on
Monticello since November, 1970.
2. Provide a listing of all times in which the
Monticello Nuclear Generating Plant was operated
with any part of the ECCS non-operational.
3. Provide a listing of all times in which NSP
reported itself to be in violation of technical
specifications. Also a listing of the occasions
on which the AEC alleged violation of the
technical specifications by NSP. Provide a
complete history of each event.
4. Application §5.17. Provide a complete description
and AEC evaluation of the Monticello operational
phase quality assurance program.
5. List all reports, documents, etc., dealing with
turbine trips without bypass. Also provide a
listing of all reports, documents, etc., dealing
with the operating experience of BWR plants as
to turbine trips.

Could you kindly supply us with whatever information you have
that would answer these requests? On January 17, 1973, a pre-
liminary meeting will be held with the intervenors. If possible
we would like this information prior to that meeting.

Thomas F. Engelhardt
Chief Hearing Counsel
Office of General Counsel
