TECHNICAL ASSISTANCE REQUEST

Your assistance is requested for the following:

- a. Plant Name: Three Mile Island Nuclear Station, Units 1 and 2
- b. Licensing Status: OL
- c. Docket Numbers: 50-289 and 50-320
- d. Responsible Environmental Branch: EP-4
Project Manager: J. D. Jenkins
- e. Technical Review Branch involved: Site Analysis Branch
- f. Description of Request: Additional information is necessary to prepare for hearings with regards to the following comment on the Draft Environmental Statement from the Department of Agriculture.

"The presence of the dikes around Three Mile Island and the access bridge to the island will reduce the cross sectional area available for carrying water during flood flows. There is no mention in the environmental statement of increased backwater elevations in agricultural areas upstream from the plant."

- g. Target Date for Completion: February 28, 1973
