Mr. Richard Kennedy, Commissioner
U.S. Nuclear Regulatory Commission
Washington DC

3408

Dear Commissioner Kennedy:

As a Central Pennsylvania resident,
I am asking you to vote for the
revocation of Metropolitan-Edison's
license to operate the Three Mile Is-
land Nuclear Generating Station.

In light of their gravely ir-
responsible actions during the March
28th accident and thereafter, I feel
it is imperative that this action
be taken now to protect the resi-
dents and rate payers from future
jeopardy and excessive utility fees.

I understand that the Commission
voted in your absence to effect this
shutdown. Please demonstrate the
conscience and courage needed to let
Met-Ed and other utilities know that
you do not take your responsibilities
lightly.

Sincerely
Timothy J. Lyng
