U.S. Regulatory Commission  
Washington, D.C.

~~John~~

Dear Commissioner Ahearne:

As a Central Pennsylvania resident and taxpayer, I am asking you to vote for the permanent shut down of the Three Mile Island Nuclear Generating Station and for the revocation of Metropolitan-Edison's license to operate. In light of the circumstances surrounding the accident of March 28<sup>th</sup> and especially Met-Ed's irresponsible actions then and after, it is imperative that we be assured that this will never happen again. The only way this assurance can be made is by revoking their operating license. Met-Ed have proven that profits come first, our safety - well, it comes somewhere down the list.

Sincerely,  
Timothy J. Lydy
