'85 JUN 10 A10:20

Attention: Docketing and Services Branch

OFFICE OF SECRETARY  
DOCKETING & SERVICE  
BRANCH

License DPR-35  
Docket 50-293

Proposed Rule: 10CFR50 - Communications Procedures Amendments

Dear Sir:

Boston Edison Company personnel have reviewed the proposed rule and wish to offer the following comments for your consideration.

1. The proposed rule provides correct mailing addresses for delivery of written correspondence and reports identified in 10CFR50.4 and specifies the number of copies required by the NRC. Boston Edison supports these proposed changes. These changes would result in a reduction in reproduction and mailing cost and would eliminate unnecessary copies of correspondence and reports.
2. The proposed rule adds a new requirement: citation of the regulatory requirement prompting the submittal. This would require licensees to cite the specific regulation requiring submission in the upper right hand corner of written correspondence under the purview of 10CFR50.4.

The purpose of this proposed requirement is not clear from the background information provided in the proposed rule. However, BECO supports this requirement if it is going to be applied to the NRC as well as to the licensee.

We wish to thank you for the opportunity to comment on this proposed rule and hope that our comments prove useful to you.

Very truly yours,

W.D. Harrington
