

NOTICE OF VIOLATION

The Pillsbury Company
New Albany, Indiana

License No. 13-18883-01
Docket No. 030-14305

During an NRC inspection conducted on October 22, 1992, a violation of NRC requirements was identified. In accordance with the "General Statement of Policy and Procedure for NRC Enforcement Actions," 10 CFR Part 2, Appendix C (1992), the violation is listed below:

Condition 15 of License No. 13-18883-01 requires that the licensee conduct a physical inventory every six months to account for all the gauges received and possessed under this license.

Contrary to the above, from January 1992 to October 22, 1992, a period in excess of six months, the licensee did not conduct a physical inventory to account for all the gauges received and possessed under this license.

This is a Severity Level IV violation (Supplement VI).

Pursuant to the provisions of 10 CFR 2.201, The Pillsbury Company is hereby required to submit a written statement or explanation to the U.S. Nuclear Regulatory Commission, Region III, 799 Roosevelt Road, Glen Ellyn, Illinois, 60137, within 30 days of the date of the letter transmitting this Notice of Violation (Notice). This reply should be clearly marked as a "Reply to a Notice of Violation" and should include for each violation: (1) the reason for the violation, or, if contested, the basis for disputing the violation, (2) the corrective steps that have been taken and the results achieved, (3) the corrective steps that will be taken to avoid further violations, and (4) the date when full compliance will be achieved. If an adequate reply is not received within the time specified in this Notice, an order or a demand for information may be issued as to why the license should not be modified, suspended, or revoked, or why such other action as may be proper should not be taken. Where good cause is shown, consideration will be given to extending the response time.

NOV 24 1992
