NOV 30 1979

Lisa Calcagno  
68-20 Myrtle Avenue  
Glendale, New York 11227

Dear Lisa:

Thank you for your remarks on the accident at Three Mile Island Nuclear Station, Unit 2. I am sorry that my answer to your letter has been delayed for so long. We have been very busy here because of the accident, which is why we are late in answering your letter.

NRC appreciates your views on nuclear power. We are pleased that you have taken the time to learn more about radiation and nuclear power plant safety. To help you further, we are sending you some information on the events that occurred at Three Mile Island.

We are pleased to provide you with this information.

Sincerely,

A handwritten signature in dark ink, reading "Harold R. Denton".

Harold R. Denton, Director  
Office of Nuclear Reactor Regulation

of helping us in an emergency - seems to me that an alternative should be at the disposal of these people, who run the plant, so that a more organized plan can be available for them, to evacuate the people. Because when people panic very serious things can and will happen.

Pregnant women were in stadium and some were ready to give birth, old people need a more comfortable quarters also, mention of danger was minimized until the very end, and as a result many problems did occur.

POOR ORIGINAL

This is a very sad story because it is a sign  
that the "nukes" have destroyed life in TMI valley.  
Now you may think this is a joke but this  
is very serious and you, President Carter and all  
men must stop everything and respect this truth.  
This is the way men have already begun to destroy  
himself. He can't reproduce and his food can't reproduce  
to feed him ~~him~~ This is the ultimate research and you  
don't have to go further. This is the overwhelming  
proof that nuclear plants & nuclear activity must  
cease immediately regardless of the need for energy.  
This nuclear scandal is the worst thing that  
happened on earth. I want you to show Pres.  
Carter this because it is important for him & all  
country leaders to know this.

Enclosed are testicles in a jar preserved in isopropyl  
alcohol. These are the pheasant male's testicles.

Yours Truly  
Paul Holmberg
