

Do you know it may concern

it would like to know what
you are doing about the leak
at the nuclear plant?

There is so much confusion
about the workings of the
plant must after three days

if you report this leak,
the people would have an
accused before president

recovery and children could
have been affected.

They would have been saved
if you had opened your mouth!

if you had kept your tongue
it could have taken up, then

what would you do? it
would have been too late.

it just wanted to personally
tell you how the public felt,

and toward the nuclear plant
in Birmingham, that getting

it done, and they are living
one. Also felt to the same, it will

cause more trouble and more
must page - 7

trouble means more deaths or
sicknesses.

It's a good idea to send in a
robot, Herman since he can
tell us if there is anything
inside the plant.

But now we just learned that
our milk is affected what can
Herman do about that? Nothing
the next thing you know is
everyone will have cancer.
We don't know whether we're
drinking milk or poison.

I would like you to answer
the questions I asked and

Thank You

Yours Truly
