Director of Nuclear Material Safety
and Safeguards
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Re: NRC License Number 21-02392-07

Gentlemen:

Please consider renewal of license no. 21-02392-07 which expires on October 31, 1984. A check covering the renewal will be sent simultaneously from General Motors Corporation (refer check no. 337461 for \$120.00 and check no. 337462 for \$60.00).

Also in this request is an amendment to license no. 21-02392-07 to permit the addition of two (2) additional Nickel 63 sealed sources as defined on the application.

Please enclose a updated copy of 10 CFR part 170.

Sincerely,

William A. Butler (Sgt)

William A. Butler
Superintendent
Plant Engineering
