Docket No. 030-06787
License No. 48-13752-01
EA No. 92-198

Dear Mr. Martin:

SUBJECT: ENFORCEMENT CONFERENCE REPORT AND NOTICE OF VIOLATION AND
AMENDMENT TO TERMINATE LICENSE 48-13752-01

This refers to your letter dated May 29, 1992, that was submitted in response to the Demand for Information sent to you by our letter dated March 25, 1992. The Demand for Information requested clarification of six items pertaining to the disposition of licensed material.

On October 8, 1992, an enforcement conference was held with you in the Region III office. A copy of the Enforcement Conference Report is enclosed with this letter.

The violations described in the enclosed Notice of Violation demonstrate a weakness in control of licensed activities. Since you requested to terminate the license by your letter of August 8, 1991, no further response to the enclosed Notice of Violation is required now. Should you, at a future time, apply for a new specific byproduct material license, you will be required to respond to the violations prior to any licensing action by the NRC. In addition, you will be required to describe your program to account for and control the possession, use, transfer, and disposal of radioactive material. Enclosed is Amendment No. 13 that effectively terminates License No. 48-13752-01.

In accordance with Section 2.790 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter and the enclosures will be placed in the NRC's Public Document Room.
