WASTE MANAGEMENT MEETING REPORT

Date: January 25, 1984

Place: Silver Spring, MD

Purpose: To discuss preliminary outline of license application and environmental report for a proposed LLW disposal facility near Edgemont, South Dakota.

Attendees: See enclosure 1

Summary: Representatives from Chem-Nuclear Systems, Inc. and their contractor HWS, Inc. presented the latest information on the progress of development of a proposed LLW disposal facility at Igloo, South Dakota, which is approximately 8 miles south of Edgemont.

Discussed were the latest accomplishments in site selection and characterization, State, County, and Local government interaction, citizen involvement, the preliminary outline of the content of a license application and environmental report and Chem-Nuclear's proposed completion schedule for milestones. (See enclosure 2)

Significant accomplishments to point out are:

- 1) a study of the economics of the facility was released during the week of January 16, 1984
- 2) site selection is nearly completed
- 3) ambitious schedule calls for submittal of license application to NRC on April 1, 1986.

Commitments Made:

- 1) Chem-Nuclear will give NRC a copy of the economic report just released.
- 2) NRC agrees to consider a meeting at Igloo, which Chem-Nuclear wishes to have within 2 to 3 weeks time.
