Dear Mr. Fuchs:

I have received and considered your request for information in your letter to the USNRC dated October 5, 1984.

Regarding your request for information about Chem-Nuclear Systems, Inc (CNSI), the USNRC has a lot of information about the company, but it applies mostly to their facility at Barnwell, South Carolina, and licensing actions there. I suggest writing to Mr. M.G. Garner at the following address for information about the company as a whole, and if you desire, for additional information about their work so far on the proposed South Dakota facility. CNSI has released one report about the proposed South Dakota facility entitled, "Economic Impact of a Low-Level Radioactive Disposal Site at Igloo, South Dakota." If you wish to receive a copy of this report, I suggest asking for one directly from Mr. Garner.

The address to write to is:

M.G. Garner
Director, Public Relations
Chem-Nuclear Systems, Inc.
220 Stoneridge Drive
Columbia, SC 29210

Regarding your request for information on above ground disposal in bunkers, the NRC is preparing a report which will be available to the public around January 1, 1985. If you wish to receive a copy of this, telephone me at that time, and I will be able to give you the information on how to obtain a copy. My phone number at NRC is (301) 427-4787.

I hope this information is helpful to you. If you need further information, do not hesitate to call me.

Sincerely,

Original Signed By
