

UNITED STATES OF AMERICA
NUCLEAR REGULATORY COMMISSION

BEFORE THE ATOMIC SAFETY AND LICENSES BOARD

In the Matter of:

SACRAMENTO MUNICIPAL UTILITIES DISTRICT
Rancho Seco Nuclear Generating Station

Docket No. 50-312

INTERVENOR CASTRO'S FIRST SET OF INTERROGATORIES TO THE NUCLEAR REGULATORY COMMISSION

These interrogatories are filed pursuant to 10 C.F.R. § 2.740b, which requires that the interrogatories be answered by the NUCLEAR REGULATORY COMMISSION (NRC) separately and fully in writing and under oath or affirmation, within 14 days after service. These interrogatories are intended to be continuing in nature, and the answers should promptly be supplemented or amended as appropriate, should NRC obtain any new or differing information responsive to the interrogatories.

Because of the interrogatories served ^{on} by the NRC by the California Energy Commission, dated November 15, 1979, and on the NRC by Friends of the Earth, dated December 17, 1979, and because of the fact that intervenors CASTRO and HURSH are entitled to receive copies of the NRC responses to those interrogatories, intervenors CASTRO/HURSH have been able to eliminate any independent requests at this time. To preserve our rights, and in lieu of serving the same or similar interrogatories, intervenors CASTRO/HURSH, in Interrogatory No. 1 below, adopt the above-referenced CEC and CEC interrogatories as our own. To the extent that satisfactory answers to the CEC and CEC interrogatories have been or are supplied, with a copy to intervenors CASTRO/HURSH, intervenors will deem them to comply with this request.

INTERROGATORY

1. Provide responses to the questions and requests for information contained in the document "First Set of FOI interrogatories to the Nuclear Regulatory Commission, dated December 17 1979 and in the document "First Set of CEC interrogatories to the Nuclear Regulatory Commission, dated November 15, 1979.

Respectfully submitted,

Richard Dale Castro
