

CRITICAL MASS

ENERGY PROJECT

P.O. Box 1538, Washington, D. C. 20013 Phone: (202) 546-4790

November 12, 1979

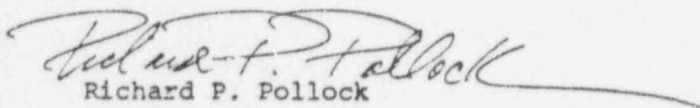

Joseph M. Hendrie, Chairman
Nuclear Regulatory Commission
1717 H Street, NW
Washington, DC 20555

Dear Chairman Hendrie:

In accordance with our letter-petition of November 2, 1979, and the preliminary NRC staff report on swelling of zirconium fuel cladding and the Emergency Core Cooling System, the Critical Mass Energy Project hereby requests a meeting with the appropriate members of the NRC staff to discuss the basis of the agency's ECCS analysis.

Due to the significance of the ECCS report and the nature of the NRC response to the preliminary findings, we would appreciate a meeting with the NRC staff as soon as possible. A member of our staff will contact your office to discuss arrangements of this meeting.

Sincerely,

Richard P. Pollock
Director
