IN RESPONSE REFER
TO FOIA-85-7

Dear Mr. Shaplen:

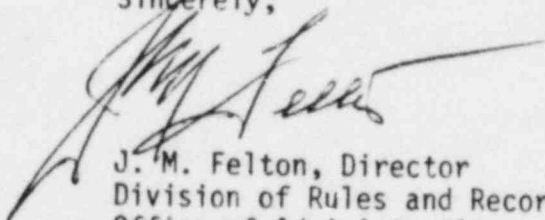

This is in response to your undated letter received in our office on January 7, 1985, in which you requested, pursuant to the Freedom of Information Act (FOIA), documents regarding Pacific Gas and Electric Company's handling of nuclear fuel, spent nuclear fuel rods, and the nuclear fuel rod storage tanks at the Humboldt Bay nuclear power plant.

You agreed in a telephone conference call on January 15, 1985 with Alzonía Shepard of my staff and staff members at Region V in Walnut Creek, California to narrow the scope of your FOIA request to two categories of information. Specifically you requested:

1. Any records from 1970 related to citations on violations involving the handling and storage of spent fuel at Humboldt Bay nuclear power plant.
2. Any and all correspondence related to the spent fuel pool as the Humboldt Bay nuclear power plant is prepared for safe storage.

Listed on Appendices A and B are documents which have been determined to be subject to your request. Appendix A lists documents which are in response to Category one, and Appendix B lists documents in response to Category two of your request. These documents are enclosed.

Sincerely,

J. M. Felton, Director
Division of Rules and Records
Office of Administration
