License No. 34-26053-01
Docket No. 030-31142

Dear Dr. Shah:

This refers to the telephone discussion between you and W.P. Reichhold of my staff on May 22, 1992. During that discussion, Mr. Reichhold reviewed the usage of radioactive materials authorized by your NRC license and the equipment and facilities you have available.

Thank you for your cooperation and the information you provided regarding this matter. We have no further questions at this time.

We understand that you plan to obtain the equipment for your facility in three or four months. Please be advised, you will need NRC approval before making any changes in your personnel, facilities, or radiation safety program.

Sincerely,

John A. Grobe, Chief
