Pittsburgh Testing Laboratory  
ATTN: Mr. M. Ruyan  
President  
850 Poplar Street  
Pittsburgh, Pennsylvania 15220

Gentlemen:

This refers to the telephone conversation between yourself and Mr. James M. Allan of this office on June 4, 1985 regarding the letter dated June 3, 1985, to you from Mr. Thomas T. Martin. As a result of our understanding that eight of the eighteen technicians at the Cleveland, Ohio facility of Pittsburgh Testing Laboratory have been found to have been satisfactorily trained and are qualified to use nuclear moisture density gauges, item 2 of the June 3 letter is modified as follows:

2. All nuclear moisture density gauge technicians currently assigned to your Cleveland, Ohio facility will be retrained and certified by Mr. Carnes. Those individuals not yet deemed qualified will complete the certification process before being allowed to use nuclear moisture density gauges.

If our understanding of your planned actions, as described above, is not in accordance with the actions being implemented, please contact this office by telephone and in writing within 24 hours of your receipt of this letter.

Sincerely,

Original Signed By:  
Thomas T. Martin
