Gentlemen:

This is in reference to your application dated August 15, 1984 to renew License Number 29-03198-03. In order to continue our review, we need the following additional information:

1. The NRC reserves the right to request a complete, up-to-date application in cases where licenses have been amended frequently or are supported by a large number of fragmented or disjointed documents. In order to continue our review of your request, we need a comprehensive application which is complete in itself and without references to previously submitted information. We are requesting this information because we note that your license has been amended three times since the last renewal and is presently supported by documents almost seven years of age.

We will continue our review upon receipt of this information. Please reply in duplicate to my attention at the Region I office and refer to Mail Control No. 18026.

Sincerely,

Original Signed By  
Jenny M. Johansen
