Arlington, TX 76011

Ref: Control No. 460507

Gentlemen:

The preceptorship statement of Phillip G. Russell, M.D., items 4.C. and 4.D. of NRC-313M, Supplement A, indicates completion of 70 hours of lecture/laboratory courses as part of the required 200 hours of didactic training. As I discussed with Mr. Cain on the telephone on April 19, 1985, this appears to comply with NRC Regulatory Guide 10.8 and with prior requirements of the NRC and therefore should be acceptable for the purpose of satisfying the training requirements for the use of byproduct materials in humans.

If there are further questions, please contact me.

Sincerely yours,

E. William Allen, M.D.
Director, Nuclear Medicine
Professor, Radiological Sciences
