Mr. Samuel Chilk
Secretary of the Commission
U. S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Chilk:

We wish to comment on the petition contained in the Federal Register and dated June 14, 1978 [Docket No. PRM-71-7, Non Destructive Testing Management Association, ET AL].

Since we were not aware of the item Appendix E of 10CFR, Part 71, we must go along with the petition that this item has been forced on the industry without proper discussion or proof of necessity.

In view of the lack of justification for Appendix E to Part 71 and in view of the lack of necessity for this item and the apparent large increase in cost and effort it will place upon the industry, we feel compelled to support the petition.

This company and its management request the immediate removal of Appendix E to 10CFR Part 71.

Very truly yours,

GULF COAST TESTING LABORATORY, INC.
