Re: Director's Final Findings and Orders
for use of H-130 and CL-37 Cooling Water
Additives for the Perry Nuclear Power
Plant OEPA Permit No. 3IB00016*DD

Dear Mr. Magni,

In accordance with the Director's Final Findings and Orders, this letter and attachments comprise the annual report to maintain approval for use of Calgon H-130 as a cooling water additive for zebra mussel control at the Perry Nuclear Power Plant.

The results of monitoring and toxicity testing done during the application of H-130 are included in Attachment 1. Reports for sections 4.a. - e. of the Orders are in Attachments 2 - 7. Reports on research, problems encountered, and any additional information is in Attachment 8. The reports from Calgon Corporation stamped "Confidential" contain proprietary information. Any release of these documents should be approved through Calgon Corporation.

Please call Louise Barton at (216) 259-3737 ext. 5512 if you have any questions or need additional information.

Sincerely,

Robert A. Stratman
