

DOCKET NUMBER
PROPOSED RULE

PR -50 (44FR75167)

10/80

I feel that the Indian Point power plants should be permanently shut down. The 10 mile limit is much smaller than the actual limits the radioactivity would reach. Even the NRC has said they have no idea when people could return to their homes. There are high risks involved in each step of the nuclear fuel cycle - indeed there have been numerous mistakes in each step already. To burden future generations for hundreds of thousands of years with highly radioactive wastes is morally wrong. It is not reasonable to conceive of people guarding wastes without serious problems ensuing.

As a citizen concerned with my future and the future of this state and country, I implore you to stop the

proliferation of something that can
only lead to massive death & destruction.
Nuclear power has killed. It was only
luck that saved Harrisburg, Browns
Ferry and Detroit. President Carter has
realized the dangers of breeder reactors.
I ask you to realize the dangers of
nuclear power plants.
