PRELIMINARY NOTIFICATION

February 8, 1980

PRELIMINARY NOTIFICATION OF EVENT OR UNUSUAL OCCURRENCE PNO-II-80-22

This preliminary notification constitutes EARLY notice of an event of POSSIBLE safety or public interest significance. The information presented is as initially received without verification or evaluation and is basically all that is known by IE staff as of this date

FACILITY: Carolina Power and Light Company
Brunswick Units 1 and 2
Docket Nos. 50-325 & 50-324
Southport, North Carolina

SUBJECT: SEISMIC EVENT RECORDERS ACTIVATED

At 9:49 a.m., on February 8, with both units operating, both seismic recorders activated. Review of records show a recorded event of 1g acceleration. Personnel onsite felt no motion. The licensee implemented the emergency procedure for a seismic event. No plant damage was identified. Checks were made with other agencies to verify if a seismic event occurred in the plant vicinity.

Additional information from other agencies and the Harris Nuclear Plant seismic monitoring system did not indicate any seismic activity in the area. The activation of the seismic recorders was evidently caused by welding activities in progress.

Media interest is not expected. Neither the licensee nor the NRC plans press releases. The State of North Carolina has been notified.

Region II (Atlanta) received notification of this occurrence by telephone from licensee at 11:30 on 2/8. This information is current as of 4:00 p.m. on 2/8.
