F. Miraglia C. Heltemes

THRU: John F. Stolz, Chief, Operating Reactors Branch #4,
Division of Licensing

FROM: ~~Harley Silver~~ Project Manager
Operating Reactors Assessment Branch, Division of Licensing

SUBJECT: DAILY HIGHLIGHT - STATUS OF TMI-1 STEAM GENERATOR HEARING

Discovery has largely been completed, and both the staff and the licensee recently filed summary disposition motions on all eleven contentions in the subject hearing, as scheduled. No formal schedule for the remainder of the proceedings has been established, but responses to these motions are due under the rules by March 20, 1984 and the Board's decision on summary disposition would be expected in late April. If any significant number of contentions remain at that time, an expedited schedule for the hearing might be as follows:

File prepared testimony	5/15/84
Start hearing	5/25/84
Complete hearing	6/15/84
Complete proposed findings	7/25/84
Initial decision	8/30/84
