

Sec of the Comm  
U.S. NRC  
Washington D.C 2055

Dear Sir:

I live near the proposed Black Fox Nuclear Energy plant. I am very concerned for the health of my husband and young children. Please, come to the Tulsa area to discuss emergency evacuation plans for the area around the Black Fox plant. It will take a great deal to protect the people of our area in case of any nuclear accident, but we need to find something effective in case of a meltdown at Black Fox Nuclear Power Plants at Inola, Oklahoma.

Sincerely, 2/29

Mary Baldridge
