Dear Mr. Dixon:

Subject: NUREG-0612, Control of Heavy Loads-Phase I

Re: Virgil C. Summer Nuclear Station

We have completed our review of Control of Heavy Loads (Phase I) for the Virgil C. Summer Nuclear Station. Our review was based on your response to our December 22, 1980 Generic Letter on "Control of Heavy Loads" and supplemental information provided by you. Based on our review and that of our consultant, the Idaho National Engineering Laboratory, we have concluded that the guidelines of NUREG-0612, Sections 5.1.1 and 5.3 have been satisfied and that Phase I of this issue for the Virgil C. Summer Nuclear Station is acceptable.

Our Safety Evaluation and our consultant's Technical Evaluation Report are enclosed. An evaluation of Phase II will be the subject of future correspondence.

Sincerely,

/S/

Thomas M. Novak, Assistant Director
