

DOCKET NUMBER **50-322**
PROD. & UTIL. FAC.

Feb. 19, 1980

Dear Sirs,

Please stop the Shoreham,
Long Island Nuclear Plant!

We already have Brookhaven
Lab.

We have no way to evacuate
in time. We're sitting ducks! Long
Island ducks! Which will die
too.

Nuclear Energy is too dangerous,
to be near any populated area.
It is not needed here!

Sincerely,

Mr. & Mrs. William Shiller
Sr.
