Attention: Mr. R. L. Hawster
Assistant Electric Production
Superintendent - Nuclear

Gentlemen:

In order that we can complete our forecast of special nuclear material requirements for the period ending December 31, 1966, we request that you furnish us at your earliest convenience your current estimated schedule of withdrawals and returns of special nuclear material, including enrichment levels, during the first and second quarters of Fiscal Year 1967 under Facility License No. DPR-6.

In your letter dated March 16, 1965, you estimated there would be no withdrawals or returns of special nuclear material during the third and fourth quarters of Fiscal Year 1966. Please advise if there has been any change in this estimate.

We shall greatly appreciate your making this information available to us no later than October 8, 1965.

Sincerely yours,
