Docket No. 50-155
Docket No. 70-660

Gentlemen:

This refers to the inspection conducted by Messrs. Finley and Peck of this office on November 12-13, 1974, of activities at Big Rock Point authorized by Title 10 Code of Federal Regulations Part 70 and AEC License No. DPR-6 and No. SM-614, and to the discussion of our findings with Mr. Hartman and others of your staff at the conclusion of the inspection.

The inspection consisted of an examination of the Big Rock Point fuel accountability procedures, internal special nuclear material control records, material transaction and status reports, inventory records, uranium depletion and plutonium production data, and a visual inventory of the special nuclear materials.

No items of noncompliance were found within the scope of this inspection.

The areas examined concern a subject matter which is exempt from disclosure according to 10 CFR Part 2.790(d). Consequently our Reports No. 050-155/74-09 and No. 070-660/74-01 of this inspection will not be placed in the Public Document Room.
