Subject: Docket No. 50-206
Monthly Operating Report for November 1992
San Onofre Nuclear Generating Station, Unit 1

Technical Specification 6.9.1.10 to Facility Operating License DPR-13 for the San Onofre Nuclear Generating Station, Unit 1, requires SCE to provide a Monthly Operating Report which includes routine operating statistics, shutdown experience, and all challenges to pressurizer safety and relief valves.

This letter transmits the November 1992 Monthly Operating Report for Unit 1. There were no challenges to pressurizer safety or relief valves during this reporting period.

Attachment A to the Enclosure provides a revised "Operating Status" sheet for the October Monthly operating report to correct the Net Electrical Energy Generated figures and Unit Capacity Factor values.

If you require any additional information, please let me know.

Very truly yours,

Walter C. Marsh
