DOCKET NUMBER PR-30, 32, 70, 130
PROPOSED RULE (43 FR 70874)
SMELTED ALLOYS

Secretary of the Commission
United States Nuclear Regulatory Commission
Washington, D.C. 20555

Attention: Docketing and Service Branch
I When It May Concern:

I urge you to sustain the regulations prohibiting possession, use, and transfer of low-enriched uranium as a contaminant in metals. All radiation is dangerous, many studies have proven to us how even low level radiation can manifest its effects short and long ranged and I will not tolerate products made from this radioactive scrap metal to be used in daily life.

Thank you for your assistance in this matter.
Please respond to me in this matter.

Yours,
