Secretary of the Commission
U.S. Nuclear Regulatory Commission
Washington O.L. 20555

001731

DOCKET NUMBER PR-30, 32, 70, 150
PROPOSED RULE (45 FR 70374)
SMELTED ALLOYS

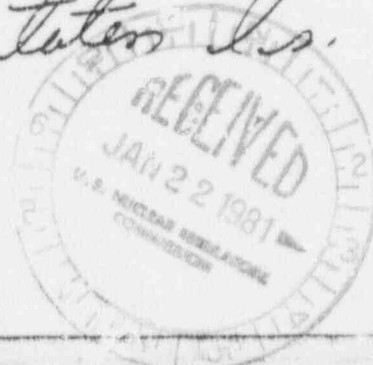

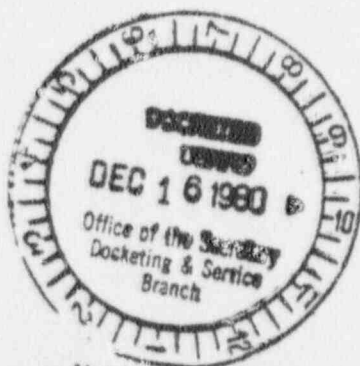

To: whom it may concern:

I have just heard of this very dangerous idea of putting radioactive waste in every day consumer products!

This method of Decontamination is not proven + I urge you to have this stopped & it's no good for our health & ~~also~~ maintaining no dumping wastes in ~~catals~~ causes defects among us so I ask you to be a kind & caring man to stopped it not for me but every body else because we are here!

Mr. Donald Phipps
